a
Real couplings exceed every shuffled refit (63/63)
real data (mean of 3 refits)
100 shuffled surrogates (range)
mean |J_ij| of refitted model
0.1
0.01
condition (sorted by real mean |J|), n = 63
b
Net coupling collapses on surrogates in 62/63
net coupling ΣJ_ij, z vs. surrogates
